AMENDED NOTICE OF INTENTION TO COMMENCE SMALL MINING OPERATIONS

The informational requirements of this form are based on provisions of the Mined Land Reclamation Act, Title 40-8, Utah Code Annotated 1987, and the General Rules as promulgated under the Utah Minerals Regulatory Program.

"Small Mining Operations" means mining operations which disturb five or less surface acres at any given time.

I. GENERAL INFORMATION (Rule R647-3-104)

1. Name Of Mine: CAMBRILLIC MINE
2. Name of Operator/Applicant: CAMBRILLIC NATURAL STONE, L.C.
Company ☒ Corporation () Partnership () Individual ()
3. Permanent Address: 1730 S 1100 E
City: SALT LAKE CITY State: UT Zip Code: 84105
Telephone Number: (801) 983-7002
4. Ownership of Land: Public Domain (BLM)

Private (Fee) () Public Domain (BLM) (☒) National Forest (USFS) ()

 Name Address
 Name Address
 Name Address

Utah Mining Claim Number(s): Utah State Lease Number(s):

6. Have the above surface and mineral owners been notified in writing?
 Yes X No

If no, why not? BLM is notified with this notice

Please be advised that if State Trust Lands are involved, notification to the Division of Oil, Gas and Mining alone does not satisfy the notification requirements of Mineral Leases upon State Trust Lands. Exploration or mining activity on State Trust Lands requires a minimum of 60 days notice to the Trust Lands Administration prior to commencing any activities. Please contact the School Institutional Trust Lands Administration (SITLA) at (801) 538-5508 for notification requirements.

7. Does the operator have legal right to enter and conduct mining operations on the land covered by this notice? Yes X No

II. PROJECT LOCATION & MAP (Rule R647-3-105)

1. Project Location (legal description):
 County(ies): Millard County, Utah
 NW 1/4 of 1/4 of 1/4 of Section 23 Township: 17S Range: 13W
 1/4 of 1/4 of 1/4 of Section: Township: Range:
 1/4 of 1/4 of 1/4 of Section: Township: Range:

UTM East (if known) UTM North (if known)Name of Quad Map for Location Marjum Pass Quadrangle 7.5 Minute Series

2. A topographic base map showing the location of the proposed small mining operation must be submitted with this notice. A USGS 7.5 minute series map is preferred. The areas to be disturbed should be plotted in sufficient detail so that they can be located on the ground. It is recommended that the operator also plot and label any preexisting disturbances in the immediate vicinity that he is not responsible for. (See attached photo)

1. Type of mining: Surface (X) Underground ()
2. Mineral(s) to be mined: Decorative Stone
3. Provide a brief description of the proposed mining operation and onsite processing facilities See Attachment #1 — Proposed Operation

(2) New Road(s): Length 3000 (ft) Width 10 (ft)(1) Improved Road(s): Length 600 (ft) Width 10 (ft)Total project surface acreage to be disturbed: 4.99 (acres)Proposed startup date of project (month, year) April 2, 2000Proposed completion date of project, if known (month, year) UnknownIV. OPERATION AND RECLAMATION PRACTICES (Rule 647-3-107, 108 & 109)

The reclamation and operation obligation is to keep the area clean and safe, minimize hazards to public safety, return the land to a useful condition, and reestablish at least 70 percent of the premining vegetative ground cover. To accomplish this, the operator will need to perform reclamation concurrently, or at the completion (within one (1) year) of mining:

1. Keep the mining operation in a safe clean, and environmentally stable condition.
2. Permanently seal all shafts and tunnels to prevent unauthorized or accidental entry.
3. Plug drill holes with a five foot cement surface plug. Holes that encounter fluids are to be plugged in the subsurface to prevent aquifer contamination.
4. Construct berms, fences, or barriers when needed, above highwalls and excavations.
5. Remove, isolate, or neutralize all toxic materials in a manner compatible with federal and state regulations.
6. Remove all waste or debris from stream channels.
7. Dispose of any trash, scrap metal, wood, machinery, and buildings.
8. Conduct mining activities so as to minimize erosion and control sediment.
9. Reclaim all roads that are not part of a permanent transportation system.

10. Stockpile topsoil and suitable overburden prior to mining.
11. Stabilize highwalls by backfilling or rounding to 45 degrees or less, where feasible: reshape the land to near its original contour, and redistribute the topsoil and suitable overburden.
12. Properly prepare seedbed to a depth of six inches by ripping, discing, or harrowing.
13. Reseed disturbed areas with adaptable species. (The Division recommends seeding 20 lbs./acre of native and introduced species of grass, forb, and browse seed, and will provide a specific species list if requested.)
14. Plant the seed with a rangeland or farm drill, or if broadcast seeded, harrow or rake the seed 1/4-1/2 inch into the soil - fall is the preferred time to seed.

V. VARIANCE REQUEST (Rule R647-3-110)

Yes () No (X)

Any planned deviations from Rules R647-3-107, Operation Practices, R647-3-108, Hole Plugging Requirements, or R647-3-109, Reclamation Practices, as summarized above, should be identified below and justification given for the variance request(s).

VI. PERMIT FEE [Mined Land Reclamation Act 40-3-7(i)]

The Utah Mined Land Reclamation Act of 1975 [40-3-7(i)] provides the authority for fee implementation which was approved by the Utah Legislature at its 1998 session. Commencing July 1, 1998, the fees are assessed to new and existing notices of intention, and annually thereafter.

Small Mining Notices require a \$100.00 fee which must accompany this application.

VII. SIGNATURE REQUIREMENT

I hereby commit to conduct mining operations and to reclaim the aforementioned small mine as required by the Utah Mined Land Reclamation Act (40-3) and the rules as specified by the Board of Oil, Gas and Mining.

Signature of Operator/Applicant:

Name (typed or printed):

William J. Pappas

Title/Position (if applicable):

ATTACHMENT #1

PROPOSED OPERATION

The proposed mining operation will be a quarry type excavation exposing the inplace liney shale rock to be excavated. This mine plan is to mine approximately 25 tons per pay or more at the start of operations. Trucks, dozers and rubber tired loaders will be used to excavate the raw material. The product will be loaded on flat-bed trucks and hauled to a staging area where it will be hand sorted and placed on wooden pallets (aprox. 300 lb. each), banded and shipped out of the mining area by commercial carriers.

Dozers will scrap off the thin surface soil and over-burden material. This material will be placed in a nearby area for future reclamation use. The waste material contained in the formation will be dozed or dumped in a waste dump area near the quarry pits and used for replacement fill after operations are closed.

Water, from an existing spring approximately two miles southeast of the quarry, will be used to help part the thin bedded stone and also to roughly clean the selected material.

Three small pits will be opened. Each pit will be about 300ft long and 100ft wide. Total disturbed area for this operation will be as follows:

3 Quarry Pits 3x300x100	= 90,000sq ft
3 Dump Areas 3X300X60	= 54,000sq ft
3 Reclamation Dumps 3X50X25	= 3,750sq ft
Roads New & Improved 3600X10	= 36,000sq ft
Staging Area 100X200	= 20,000sq ft
Miscellaneous	= 14,000sq ft
Total Square Feet	= 217,750sq ft
<u>Maximum Acres To Be Disturbed</u>	<u>= 4.99 Acres</u>

See attached location map and photo for details and approximate location of the above described areas.

Re: Acceptance of Amended Notice of Intention to Commence Small Mining Operations, Cambrillic Natural Stone, L.C., Cambrillic Mine, S/027/079, Millard County, Utah

Dear Mr. Pappas:

Thank you for your amended Notice of Intention to Commence Small Mining Operations, received March 15, 2000. The amendment changed the location of the Cambrillic proposed small mining project from Section 14, to Section 23 in Township 17 South, Range 13 West, Millard County, Utah. The amendment is considered complete and no other information is required at this time. Approval by this Division does not constitute approval from any other agency that may be involved. **As this project is located on BLM managed lands, you must have BLM written approval before commencing with your operation.**

You indicated to our staff that there is mining going on in this vicinity and that the BLM informed you the mining was taking place in a "BLM community pit." Before you commence any mining, please carefully document any previous disturbance with dated photographs for which you do not want to be held responsible. Any area you disturb or any existing disturbance that you may re-impact will then become your responsibility and be counted in your total acreage.

As no variance were requested for this amendment, all conditions outlined in the Division's original acceptance letter still remain. As a reminder, please give special consideration to item #10 of the "Operation and Reclamation Practices" (SMO-1). Stockpiling topsoil material prior to beginning your mining operation will help ensure successful revegetation efforts upon final reclamation of the minesite. If the area being mined is a solid rock outcrop, or if the land surface is very rocky, then soil stockpiling is probably not possible. However, even the first few inches of undeveloped material is worth saving to aid in later revegetation efforts, and future regulatory release from reclamation requirements.

Should you wish to expand your operation beyond the five acre limitation, please notify this office as soon as possible to discuss the necessary permitting requirements. A large mining notice could take from six to twelve months or longer to receive approval.

Page 2
William Pappas
S/027/079
March 17, 2000

Thank you for your cooperation. When in the area, a member of the Division staff will examine the site. Best wishes with your mining operation.

Sincerely,

Tom Munson
Senior Reclamation Specialist

DIVISION OF
OIL, GAS AND MINING

March 27, 2000

BE IT ACKNOWLEDGED, that Richard Stone of 1359 Park Street, Salt Lake City Utah, the undersigned deponent, being of legal age does hereby depose and say under oath as follows: On March 26, 2000 I, Gerald McCurdy of Utah County, Time Chadwick of Utah County, and Ken Crandall of Millard County, went into Millard County Utah, Township 17 Range 13 West, section 23 and observed that there is an unauthorized company of individuals who are trespassing and mining valuable minerals from a valuable and uncommon deposit claimed by Cambrillic Natural Stone LLC. Cambrillic Natural Stone filed a claim for the mentioned property on August 16, 1999, paid the proper fees to BLM of \$435.00, filled out the proper papers, which the office of the Bureau of Land Management accepted and filed into their records. Cambrillic Natural Stone LLC has properly filed "Notice of Claim" with Millard County, "Notice of Operation" with The Bureau of Oil Gas and Mining, has been in contact with "MSHA" concerning their imminent "LEGAL" mining operation.

This clandestine company has not only illegally removed approximately 1,000 tons of valuable minerals, but has brutally ripped the landscape of about 7 to 8 acres of BLM land at the foot of the hill and adjoining flat land, but has bladed and disturbed other parts of the mountain ascending up the mountain, and have ripped up additional land 2/3 the way to the top of the mountain. There is an estimated additional 20 acres of disturbance in that area. This wayward company has not filed with the Bureau of Surface mining, (MSHA), nor the office of Oil, Gas, and Mining (DOGM), nor a mining plan with BLM, and finally a Notice of Location with the Millard County Recorder. I have personally checked these offices and find no record of them doing so. I have personally taken video pictures of these areas which contain views of ripped up land, contraband minerals loaded on pallets, equipment, and over 300 empty pallets that are apparently waiting to hold another 640 or so tons of additional contraband.

Witness my hand under the penalties of perjury this 27, day of March 2000

Richard Stone
